COLOR STYLING MADE EASY

Beautiful interiors are easy to put together just by following a few simple guidelines.

- Begin with colors you already have, in carpets, fabrics, furniture, etc. Choose new colors to harmonize or contrast with these colors.
- Choose warm colors (yellows, pinks, beiges) for bright cheerful effects; cool colors (greens, blues, grays) for restful subdued effects.
- Consider room size. Dark colors and contrasting color combinations make rooms look smaller. Light colors used without contrast make rooms look larger.
- Highlight good features by using contrasting colors. Subdue bad features by blending them in with the background color. Let the color scheme flow from room to room without abrupt change.
- Use accents to provide interest and a focal point.
- Select colors you like. The most beautifully decorated room can be uncomfortable if the colors are not to your liking.

The colors shown here are among today's most fashionable and popular colors, but your choice is not limited to these alone. Porter's DESIGN SPECTRUM® Color System has many more for you to choose from. The right Porter colors made in the right Porter finishes will guarantee you beautiful interiors.

Below are the paint colors used in the rooms pictured here. Please note that the printing process cannot accurately portray the paint colors shown here. The paint colors have been identified to provide a good representation of how these colors appear in a room setting.

Quality Interior Finishes

Porter Paints interior finishes are formulated to the exacting standards of master painters, builders, architects, and discriminating home owners. Porter's premium finishes will ensure years of carefree beauty and service. We are so sure of this that every gallon of Porter Paint comes with our satisfaction guarantee. Every gallon.

Silken Touch®

A remarkable interior finish, SILKEN TOUCH provides excellent stain resistance and washability. SILKEN TOUCH, available in elegant flat, eggshell, satin, and semi-gloss sheens, will keep your interior walls and trim beautiful and vibrant for years to come.

Hi-Hide®

A premium quality interior finish, HI-HIDE provides excellent coverage, stain resistance and washability. HI-HIDE is available in flat, eggshell, satin, and semi-gloss sheens and is excellent for use in residential and commercial applications.

Advantage™ 900

Finishes of 100% acrylic developed using a new age resin system. These tough, durable finishes may be applied directly to properly prepared surfaces without a primer, and dry to touch in just one hour. ADVANTAGE 900 is available in gloss and semi-gloss sheens, perfect for hard wear areas such as kitchens, stairwells, kids' rooms, baths, etc., and is ideal for painting doors, woodwork, and trim.

Glyptex™ Eggshell

The standard by which all other alkyd enamels are judged. This superior enamel is virtually non-yellowing, applies easily, levels beautifully and dries to a remarkable semi-gloss sheen that washes like fine china.

Porter offers a complete line of sealers and undercoats to provide the best foundation for these fine finishes. Ask us to help design the right painting system for your job.
